I'm going to be in Colorado for the month of March. Aurora Alliance Church will be hosting an open house for me. Come find out what I've been up to and how God has been using me through Athletes in Action. Also I will be preaching Sunday, March 15 during the 10:30am worship service.

Gypsum, Colorado at Eagle Alliance Church

March 20-22

I am coming to Colorado to communicate the many awesome things Jesus is doing around the world specifically through this team and Athletes in Action. I will share inspiring stories. And I want to thank everyone for their faithful partnership especially in this difficult economic climate. I am hoping to raise support for the busy ministry and travel plans for this summer. My current needs are \$600/800 monthly support and one-time gift of \$6,000. If you know people who can partner financially and/or in prayer please be praying about hosting a dinner where I can share with them and ask them to join us. Thanks you so much!

Upper Mid-West in Wisconsin Retreat Highlight

We continue to capture athletes' stories on video. Please pray for the editing process. I can't wait to share those with you, but it will take time. Also each retreat we have a relationship talk and the theme at this one was "The Myth that Sex is Dirty" after that talk we had a relationship panel of five men and five woman at different places in their respective relationships. I represented the Single Guy. I challenged the men that their motive in dating should be, "If I am not her husband then at her wedding her father or future husband could look me in the eye and say, 'Thank you.' If that is your motive while dating than you know you are treating her right." Pray for me to continue to be convicted to live that way.

PRAYER REQUESTS

- The AIA/FCA (Fellowship of Christian Athletes) retreat at Estes Park March 6-8 (I'll be attending/speaking)
- My stay in Colorado
- My heart and emotions as Jesus has turned up the fire in the refining process. He is attempting to lop of major branches that don't give Him glory and those branches are big and it will hurt
